PROFESSIONAL EXPERIENCE

SERVICE ENGINEER | XEROX MEDTRONIC SITE | [MARCH - OCTOBER 2024]

- **System Maintenance:** Managed the lifecycle of 100+ Xerox printers, performing firmware and software updates to ensure peak performance.
- **Technical Troubleshooting:** Diagnosed and resolved hardware and software incidents with a systematic approach.
- **Operational Efficiency:** Guaranteed 99% equipment uptime in a high-pressure medical environment, following strict quality protocols.
- **Preventative Maintenance:** Executed scheduled inspections to fix potential failures before they impacted the workflow.

INTERNSHIP | CIMAV DURANGO | [JANUARY - JUNE 2023]

Programmed an ESP32-based 2-axis solar tracker using Arduino, implementing real-time positional control for X and Y axes.
